CUSTOMS AND BORDER PROTECTION (CBP) SELECTS SMARTRAYVISION PORTABLE X-RAY SYSTEMS

GREEN BAY, WI | October 14, 2020—SmartRayVision® portable X-Ray systems manufactured by SharpLogixx, LLC in Green Bay, WI has been competitively selected for advanced contraband inspections at Customs and Border Protection Checkpoints and ports of entry inspection stations throughout the United States and its territories.

SmartRayVision is the leading manufacturer and supplier of portable X-Ray systems for the United States Department of Defense, Federal, State and Local agencies. These portable X-Ray systems are designed to inspect and detect extremely difficult threat scenarios. Agents will have a completely new capability by enhancing rapid detection of hard to find contraband.

SharpLogixx, LLC has delivered SmartRayVision portable X-Ray systems hosting the most advanced DR imaging capabilities and cutting edge SRV EOD Software to the United States Customs and Border Protection.

For more information, contact SharpLogixx, LLC President / COO Robin Pfaff at (877) 638-3868 or visit www.smartrayvision.com.
